Galvanized Galvanized Pipe Vinyl Razor Ribbon Fused Color Pipe Aluminized Commercial Quote Steel Barrier Residential Quote Decorative Inserts

**Color Pipe**

**Durability:**

For years, architects and fence contractors have been asking for a "superior" coating finish that can withstand the rigors of shipment and installation and result in a project with a beautiful "up close" appearance at completion. Ameristar's Color Chain Link Fence Framework is the solution.

**UV Resistance:**

Ameristar's Color Chain Link Framework has "superior" ultra-violet characteristics which far exceed vinyl clad systems, in extreme sun exposure, as shown in our numerous test studies.

**Maintenance Free:**

The galvanized steel substrate combined with the "superior" maintenance free Permacoat Color System results in unsurpassed product life expectancy which far exceeds the performance of other coating finishes.

**Unmatched Quality:**

Ameristar Color Fence Systems are the only fence products in the U.S. having the Permacoat Color System. Permacoat provides the following "superior" quality:

- Resistant to scratches, nicks and abrasions
- Corrosion resistant
- Unsurpassed visual appearance

Available in Black, Green, and Brown
